

# Welcome to tidyverse developer day!

1. Please make a name tag and get breakfast
2. Connect to the wifi:  
*MSFTguest / msevent309nq*
3. Open the README:  
**<https://github.com/tidyverse/tidy-dev-day>**
4. Start browsing the issues wall

# Welcome to Tidyverse Developer Day!

***January 2020***

<https://github.com/tidyverse/tidy-dev-day>

# Code of conduct

If someone makes you or anyone else feel unsafe or unwelcome, please report it to me or Jenny, either in person, or in email [hadley@rstudio.com](mailto:hadley@rstudio.com)/[jenny@rstudio.com](mailto:jenny@rstudio.com).

If needed you can call me on +1 515 450 8171

(Contact details also on the website)

# Introductions

Feature

Documentation

Bug

tidyverse/ggplot2#2860  
change barwidth approach in stat\_density to  
match stat\_density  
feature, layers

tidyverse/ggplot2#3362  
Layer data mapping are ignored in  
stat\_function()  
documentation

tidyverse/ggplot2#2887  
Should limits be enforced on the calculated  
geom?  
documentation, scales

tidyverse/ggplot2#3292  
Improve lims()/labs() documentation  
documentation

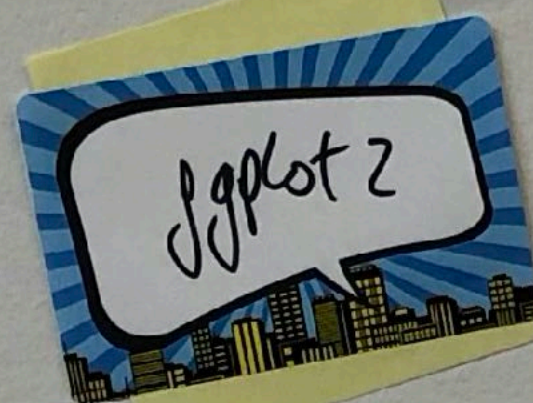

tidyverse/ggplot2#2873  
geom\_area doesn't respond to yaes aesthetic  
documentation, layers

tidyverse/ggplot2#2472  
stat\_function() a broken parameter in documentation  
documentation, Good first issue, help  
wanted

tidyverse/ggplot2#3298  
Improve scale\_x(x) y) continuous documentation  
documentation

tidyverse/ggplot2#3299  
Improve documentation for scale\_x\_gradient  
documentation

tidyverse/ggplot2#2709  
Using position\_stack() with text geom in  
stat\_summary()  
bug, positions

tidyverse/ggplot2#2776  
Documentation of stat\_ellipse() is misleading  
documentation

tidyverse/ggplot2#3293  
Improve aesthetic documentation  
documentation

tidyverse/ggplot2#3381  
Improve documentation for  
scale\_x(x) y) discrete()  
documentation

tidyverse/ggplot2#3180  
Vertical space between legend keys changed  
after switching theme?  
bug, themes

tidyverse/ggplot2#3269  
documentation for geom\_histogram()  
documentation

tidyverse/ggplot2#2863  
Add section on colour blindness to colour  
scales  
documentation, scales

tidyverse/ggplot2#2767  
position\_dodge() works without a grouping  
variable in a layer  
documentation, positions

tidyverse/ggplot2#3295  
Clarify the relationship between 'path' and  
'filenames' in ggplot() documentation  
documentation

tidyverse/ggplot2#3290  
Improve facet\_\*() documentation  
documentation

tidyverse/ggplot2#3300  
Improve documentation for scale\_x\_brewer()  
documentation

tidyverse/ggplot2#2902  
'stat\_density()' ignores 'weight'  
bug, layers

tidyverse/ggplot2#3294  
Improve theme documentation  
documentation

tidyverse/ggplot2#3297  
Improve geometry documentation of  
aesthetics/params in stat/geom functions  
documentation

tidyverse/ggplot2#2734  
ggplot\_add.by()  
feature, internals

tidyverse/ggplot2#2630  
Change the default estimation method for geom in  
geom\_smooth()  
feature, layers

# Workflow

1. Claim an issue by taking a post-it.
2. Figure out how to handle it, then make a PR.
3. Stuck? Put your post-it in flag positions
4. When you're ready for review move the post to the review wall.
5. When your PR is accepted, ring the gong!

# Pull request process

## 1. Clone repo & download

```
usethis::create_from_github()
```

## 2. Branch

```
usethis::pr_init()
```

## 3. Push

```
usethis::pr_push()
```

Don't forget "Fixes #123"

# Advice

If you've never done a PR before, start with a documentation issue. They are important, but there aren't quite so many moving pieces.

If you get stuck, ask for help!

**Git/GitHub issues:** Jenny's help desk

**API design questions:** Hadley's help desk

# Thanks!

Microsoft for providing the space

RStudio for the food/drinks.

All of you for coming!

As a small token of thanks, and as a way to remember the day, I'll be handing out commemorative coins.
